Cllr K Hague has been chasing Cheshire East Enforcement for updates. The below response was the latest update from the Principal Planning Officer.

'There is a discharge of conditions application that has been submitted to the Council in relation to this site, reference 25/0554/DSC. This was submitted by the Millington Trust (previously Tatton Estate) earlier on in the year following Officers informing them that we were now considering formal action.

When the last planning application was approved, it was subject to a condition that said, amongst other things, that the land should be restored in accordance with a scheme of work submitted to and approved by the Local Planning Authority. This proposed scheme of work has been submitted as part of the discharge of conditions application and is currently under consideration.

At the moment the enforcement case is on hold awaiting the outcome of the application. We are aware that they have removed some of the structures from the site.'

9 Reports from the Clerk and the Councillors

9.1 Update on Canal

Work constructing the two temporary dams started on the 19th November and should be complete by the end of the year. There has been reports that these dams have been vandalised on multiple occasions. Arson incidents have occurred on the grass banks during the summer with the fire brigade called out twice. Not only could this delay the construction but most importantly puts lives at risk.

Heavy machinery on Wharf Lane can now come through the fields and by the underpass to access instead of down Park Lane. This is due to the contaminated soil tests that confirmed 'no risk to human health from chemical or microbiological sources.'

The December 2025 press release from Peel Holdings can be found on the website [here](https://www.littlebollington.org/what-s-going-on/).

<https://www.littlebollington.org/what-s-going-on/>

Plans are in place, as previously, and Peel have advised that they are on track for the December 2026 completion. Work is expected to start in summer 2026.

Engineering material will be brought in instead of the sand that was used previously for the embankments. As flooding has been a long-standing challenge for the village, they are using this opportunity to put large culverts in to prevent future flooding.

Cllr T Briton and Cllr W Blackburn attended meetings twice a week for 9 months on the Little Bollington Collapsed Canal Embankment Major Incident SRCG. This recovery group got stood down in October. A resident wanted to express their thanks to both Councillors for their time and representing the village.

9.2 To consider a new system for ticket requests for 2026 NT Christmas light

The current tickets system was discussed, and a new system was proposed by the Clerk. The Council have **RESOLVED** that if Little Bollington residents are offered free tickets for the 2026 Christmas season, that 1 ticket per resident will be offered, rather than 4 tickets per household. Only residents will be eligible to request tickets and no tickets can be requested on behalf of another household. the Clerk will use an online form for eligible residents to complete. This form will be emailed to residents on the Clerks Little Bollington residents contact list. The form will also be shared on the website, on the village whats app group and details will also be posted on the noticeboards.
